

Selective Call Acceptance

Gives you control over which calls you'll take.

How to use:

1. Pick up the handset and listen for the dial tone.
2. Press *64. (On a rotary phone, dial 1164.)
3. Listen for an announcement telling you whether the feature is currently on or off. The recorded voice will then tell you how many (if any) numbers are currently stored on your acceptance list.
4. Follow the voice instructions and dial 3 to turn the feature ON (if it is currently off), or turn the feature OFF (if it is currently on).
5. Follow the voice instructions you'll hear to add or remove a number from your list.

When someone calls:

6. If your service is turned ON, you'll receive calls only from those on your acceptance list. Callers who are not on your list will simply hear an announcement that you are not accepting calls at this time.

Note: The list you create here is separate from any other lists you may be using for similar services.
