

BLOCKING THIRD NUMBER AND COLLECT CALLS

Golden West Telecommunications has the capability of screening third number calls and collect calls placed with long distance carriers who access our data base (ie: AT&T, Express, Qwest). You may still have to refuse some collect calls placed through carriers who do not access the data base. You may choose to block third number calls, collect calls, or both.

If you are interested in securing this plan, please sign the authorization below and we at Golden West will code your telephone number appropriately through the data base.

If you have any questions, please call 1-855-888-7777.

I, _____,
authorize Golden West Telecommunications to code my

(telephone number) for:

No Third Number Calls

No Collect Call

Date: _____

Signed: _____
