

# Caller ID Delivery Line Block

*This service automatically prevents your name & phone number from being displayed to the person receiving your call.*

## **How to use:**

1. Automatically blocked.
2. The person you've called will not be able to see your name or phone number displayed on their telephone display screen. Instead, a "P" or "private" will be displayed.

## **Note:**

If you are calling a person that has anonymous call rejection, your call will not go through. You may dial \*82 for your call to go through but this will show your name and phone number on their display screen.
